

Tuesday 8th : HGA / IAM - Meeting in Geneva with Swiss Industry scientists to informally discuss the idea of encouraging the establishment of a group of senior independent scientists, such as university professors interested in the use of Genussmittel (product-use for enjoyment). HER - Telephone contact with Prof. ROGER PERRY, Imperial College, London. The second part of the IAQ study on UK offices has been completed ; the results were presented at the Lisbon conference and published in the proceedings.

Wednesday 16th : IAM - Meeting in Zürich during which Prof. K. BÄTTIG gave some information on his idea of establishing a group of independent scientists interested in the use of Genussmittel (product-use for enjoyment). HER - Participated in the meeting of the Scientific Commission of CORESTA, which took place in Torgiano, Italy, upon the kind invitation of Deltafina. The first day was reserved for the Reading Committee for the autumn CORESTA Conference in Greece. Among the 26 papers selected for the paper sessions of the Technology and Smoke Study Group, four were contributed by Philip Morris.
